Education

University of Wisconsin-Madison

M.S. Environmental Conservation

Expected August 2024

B.S. Conservation Biology, Environmental Studies

May 2022

Digital Studies Certificate

Skills

Writing, Leadership, Communication, Conservation Planning, Miradi, ArcGIS/ArcMap, Social Media, Ecological Restoration, Microsoft/Google Suites, Adobe, Canva, Webpage Design, Management and Facilitation, Wix

Work Experience

Scientific Report Writing

Researcher and Writer

September 2023-January 2024

- o Independently researched climate change impacts on the Maunakea ecosystem in Hawai'i to understand the interaction of climate, invasive gorse, and wildfire risk
- o Wrote an extensive report and blog post to communicate my research findings to different audiences which will increase awareness, knowledge, and action around climate change, gorse, and wildfire risk in the region

Conservation Planning

Team Member

September 2023-November 2023

- o Applied the Conservation Standards and used Miradi to create a conservation management plan for livestock mitigation and invasive gorse in Alerce Costero National Park and the Valdivian Coastal Reserve in Chile
- o Planned for and facilitated meetings with Chile project partners over Zoom while navigating language barriers

Kupu, Hawai'i Youth Conservation Corps

Team Leader

May 2022- July 2022

- o Motivated, transported, and led 3 AmeriCorps members doing strenuous physical labor and camping in all weather conditions which resulted in the removal of thousands of invasive plants across Hawai'i over 6 weeks
- o Organized meetings and communications between the team and six conservation organizations on island

Air Quality Monitoring and Policy Analysis

Team Member

January 2022-May 2022

- o Researched air quality monitoring and regulations to create a management and recommendation report in collaboration with AirQo Makerere University School of Public Health professionals in Kampala, Uganda

Leadership

Wisconsin Society for Conservation Biology

President, State Chapter

January 2023-Present

- o Re-Starting the organization by setting up a team, facilitating all meetings and events, building a website and social media presence, and collaborating with conservation organizations to promote conservation in Wisconsin

Wisconsin Society for Conservation Biology- Student Chapter

President, Student Chapter

May 2020-May 2022

- o Connected students with conservation organizations and professionals through over 50 meetings and events
- o Increased funds four-fold from 2019 to 2022 by creating fundraisers and writing grant applications

Secretary, Student Chapter

September 2019-May 2020

- o Directed meetings, planned and created content for social media, created a website, directed the executive board, and initiated collaborations with over 20 other environmental organizations
